

VOICEGATE PHARMACY MANAGEMENT SYSTEM (VPHARM)

Accurate Dispensing. Smart Inventory. Safer Patient Care.

About VPHARM

VPHARM (Voice Gate Pharmacy Management System) is a comprehensive platform designed to manage pharmacy operations, streamline medication dispensing, and optimize drug inventory, ensuring accuracy, compliance, and real-time visibility.

Solution Overview

VPHARM enables organizations to digitize pharmacy operations, ensure safe medication dispensing, optimize inventory, integrate with hospital and billing systems, and enable real-time monitoring and compliance.

Why Choose VPHARM

VPHARM is a complete pharmacy management solution that offers seamless integrations, real-time analytics, a scalable system, and a secure platform to efficiently manage pharmacy operations.

Core Modules

- Prescription Management
- Dispensing Management
- Inventory & Stock Management
- Billing & Sales Management
- Procurement & Supplier Management
- Analytics & Reporting

Key Features

- End-to-end pharmacy lifecycle management
- Barcode-enabled dispensing and tracking
- Real-time inventory visibility
- Automated alerts for expiry and low stock
- Integrated billing and compliance

Compliance & Standards

- Pharmacy regulations (India)
- GST compliance
- Data privacy (DPDP/HIPAA) & Audit-ready reporting

Business Benefits

VPHARM improves medication safety, reduces wastage, streamlines pharmacy operations, provides real-time visibility, ensures regulatory compliance, and enhances overall patient satisfaction.
